EXAMPLES OF METHODS FOR VERIFYING LEARNING OUTCOMES
in terms of knowledge (lectures/seminars): andoral exam (non-standardized, standardized, traditional, problem-based); written exam – the student generates / recognizes the answer (essay, report; short structured questions /SSQ/; multiple choice test /MCQ/; multiple answer test /MRQ/; matching test; Y/N test; answer completion test),
in terms of skills (exercises/conversations): Practical exam; Objective Structured Clinical Examination /OSCE/; Mini-CEX (mini – clinical examination); Realization of assigned task; Project, presentation
in the field of social competences: reflective essay; extended observation by supervisor/lead teacher; 360° feedback (opinions from teachers, colleagues, patients, other collaborators); Self-assessment (including portfolio)
BUNA –the student's own work is verified by assessing the degree to which the assumed learning outcomes have been achieved: a test checking the student's knowledge of the topics specified in the syllabus, but also through term papers, projects, presentations and any other mid-semester work.

Method of passing and forms and basic assessment criteria/examination requirements

How to pass

- Exam - lectures
- Graded exam – exercises
- Graded exam - practical classes
- Pass without grade - professional practice
- Pass without grade – BUNA

Forms and criteria for passing

PASSING A SUBJECT - THE SUBJECT ENDS WITH AN EXAMINATION

Lecture

The basis for obtaining credit is:

- 100% attendance; confirmed by an entry on the attendance list,
- a possible 10% absence will be compensated in an individual manner agreed with the teacher.

Exercises

The basis for obtaining credit for a grade is:

- 100% attendance; confirmed by an entry on the attendance list (absence excused in the event of a student's illness documented by a sick leave or other unforeseen circumstances and making up the classes at another time),
- active participation in exercises (showing interest in the issues discussed and taught during the exercises),
- positive evaluation of learning outcomes in terms of social skills and competences – positive evaluation of the written or oral colloquium,
- correct completion of applicable nursing documentation,
- correct preparation of a written work - a nursing care plan/nursing process for a patient with a selected nursing diagnosis (positive BUNA assessment),
- correct attitude towards the simulated/standardized patient, colleagues, teacher, profession and science and regulations.

Practical

The basis for obtaining credit for a grade is:

- 100% attendance; confirmed by an entry on the attendance list (absence excused in the event of a student's illness documented by a sick leave or other unforeseen circumstances and making up the classes at another time),
- active participation in practical classes,
- positive assessment of learning outcomes in terms of social skills and competences,
- correct completion of applicable nursing documentation,

- correct development of the patient care process, correct description of the nursing report,
- correct attitude towards the patient, the therapeutic team and colleagues, the profession and science, and the regulations,

Professional practice

The basis for obtaining credit is:

- 100% attendance; confirmed by an entry on the attendance list (absence excused in the event of a student's illness documented by a sick leave or other unforeseen circumstances and making up the classes at another time),
- active participation in professional internships,
- positive assessment of learning outcomes in the field of social skills and competences (principles, efficiency, effectiveness, independence, communication, attitude),
- correct completion of applicable nursing documentation,
- correct development of the patient care process, correct description of the nursing report,
- correct attitude towards the patient, the therapeutic team and colleagues, the profession and science and the regulations.

KNOWLEDGE ASSESSMENT CRITERIA

Knowledge assessment criteria - test

Rate	Very good (5.0)	Good plus (4.5)	Good (4.0)	Sufficient plus (3.5)	Satisfactory (3.0)	Insufficient (2.0)
% correct answers	93-100%	85-92%	77-84%	69-76%	60-68%	59% and less

Knowledge assessment criteria - oral response

No.	Criterion	Number of points 0-5
1.	Correctness of the answer	
2.	Accuracy of problem recognition	
3.	Current medical and health science knowledge	
4.	Interdisciplinary knowledge	
5.	Correctness of medical/professional vocabulary	
6.	Independence and creativity in proposing solutions	
7.	Together	

*Obtaining 0-1 points in any criterion results in an insufficient grade

Number of points and rating:

30-28 - very good (5.0) - the student provides a fully exhaustive and correct answer to the question asked, freely uses substantively correct scientific language, taking into account current medical knowledge in the oral answer, demonstrates ease in solving problems resulting from the task, skillfully combines knowledge from various scientific fields, demonstrates originality of own thoughts.

27-25 - plus good (4.5) - the student provides the correct answer to the question asked, uses scientific language, taking into account current medical knowledge in the oral answer, solves problems arising from the task, combines knowledge from several scientific fields.

24-22 - good (4.0) - the student basically provides an independent answer that contains most of the required content, a few errors in the answer are permissible (secondary from the point of view of the topic), uses current medical knowledge requiring minor supplementation, the answer is correct in terms of scientific language, the accuracy of recognizing problems requires minor improvement, the answer should include the student's independent conclusions.

21-19 - plus satisfactory (3.5) - the student basically provides an independent answer that contains most of the required content, makes few, primary errors in the answer, the student knows the most important facts and is able to interpret them and identify the most important problems, uses medical knowledge that is not always up-to-date, in the answer takes into account knowledge only from a given field, makes errors in the use of scientific language, requires help in drawing conclusions.

18-16 - satisfactory (3.0) - the student gives an answer that contains part of the required information, making mistakes, but with the teacher's help, he corrects his answer, both in terms of substantive knowledge and the way it is presented, however, the student knows the basic facts and, with the teacher's help, gives an answer to the question posed.

CRITERIA FOR ASSESSING INDIVIDUAL ELEMENTS OF SOCIAL SKILLS AND COMPETENCES

Criteria for assessing practical skills(0-2 points for each element): principles, efficiency, effectiveness,

independence, communication, attitude.

A student receives a pass/positive grade when obtaining at least 6 points for the learning elements.

Number of points	Criteria for assessing individual elements of the activity (task/exercise performance) by the student					
	Rules* (pts. 0-2)	Efficiency* (pts. 0-2)	Effectiveness* (pts. 0-2)	Independence* (pts. 0-2)	Communication* (pts. 0-2)	Attitude* (pts. 0-2)
2	follows the rules, proper technique and the order of execution activities	performs activities confidently and energetically	procedure takes into account the situation patient, achieves the goal	plans and carries out activities independently	correct, independent, effective content selection	analyzes his behavior, works with the team therapeutic, full identification with professional role
1	he observes rules after Direction	the activities are performed not very sure, after a short while contemplation	does not always take into account health situation patient, achieves the goal after Direction	requires reminders and orientation in some activities	requires guidance, orientation in content selection	has difficulty in critical evaluation and analysis of your behavior, in cooperation with the team therapeutic and in identification with professional role
0	does not comply rules, chaotic performs actions	the activities are performed uncertainly, very slow	does not take into account individual situation patient, does not achieve the goal	requires constant guidance and reminders in every action	can't keep up verbal contact with the patient	can't critically evaluate and analyze his behavior, he does not cooperate with the therapeutic team, no identifies with professional role

FINAL SUBJECT EXAM

- The condition for admission to the exam is to obtain a positive assessment of lectures and exercises, practical classes, professional practice and BUNA.
- The exam is in the form of a written test, multiple choice test /MCQ/ with one correct answer (each correct answer is worth 1 point, no answer or incorrect answer is worth 0 points, at least 60% of correct answers qualifies for a positive grade.

Test Grading Criteria

Rate	Very good (5.0)	Good plus (4.5)	Good (4.0)	Sufficient plus (3.5)	Satisfactory (3.0)	Insufficient (2.0)
% correct	93-100%	85-92%	77-84%	69-76%	60-68%	59% and less

answers						
and/or oral response						
Assessment criteria – oral response						
Rate		Criterion				
Very good		Correct, complete, independent answer to 3 questions asked to the student by the instructor				
All right		Correct answer, requiring slight guidance from the teacher, to 3 questions asked to the student				
Sufficient		Correct, incomplete, requiring significant guidance from the teacher, answer to 3 questions asked to the student				
Insufficient		No answer or incorrect answer to any of the 3 questions asked to the student				
FINAL SUBJECT GRADE:						
— the exam constitutes 60% of the final grade of the subject						
— the remaining 40% is the average of grades from other forms of classes						
The final grade is calculated according to the following criteria:						
3.0 -3.24 – satisfactory (3.0)						
3.25 -3.74 – satisfactory (3.5)						
3.75 -4.24 – good (4.0)						
4.25-4.74 – good plus (4.5)						
4.75 -5.0 – very good (5.0)						
Conditions for making up classes missed due to justified reasons:						
Making up missed classes is only possible in the case of a student's illness documented by a medical certificate or other random reasons. The excuse for classes and the crediting of the material covered by lectures, exercises, practical classes during the period of absence is made by the lecturer conducting the classes, and the coordinator of the internship is responsible for the professional practice.						
Both a student returning from dean's leave and a student repeating a year are required to attend all classes and take a credit/exam. Only if the credit/exam in a given year is graded at least satisfactory (3.0) can a student repeating a year due to another subject be exempted from the obligation to attend classes and take and pass the subject.						
Approval: Vice-Rector for Education
